

Self-Service Gas Sampling

Total Control, Full Compliance

Need to test your gases but prefer to handle sampling yourself? Our Self-Service Sampling Program offers a flexible, compliant alternative.

Here's How It Works:

1. **We Train Your Team** – Receive live or virtual training plus SOP support.
2. **We Ship You the Kit** – Cylinders, flow controllers, coolers, and rugged Pelican transport cases.
3. **You Collect the Samples** – Using your trained personnel and our equipment.
4. **Ship It Back to Us** – GTA performs full laboratory analysis.
5. **Receive Your Results** – Audit-ready reports sent directly to your inbox

When Is This Best?

- Remote or international sites
- Low-frequency testing needs
- Budget-conscious validation teams

Partner with the specialists in gas and utility testing.
